TEMPTATIONS 24

- *Star Gazer*

Introducing NÜ Temptations 2024 – Star Gazer. This season, we follow our muse as she gets ready for a night spent dancing underneath the stars. From getting dressed with friends, to dinner and drink plans that end on the dancefloor, she captures the mood of the season in elegant ensembles that marry classic eveningwear with edgy glamour. Centred around a largely black palette, sand tones and accents of purple and metallics pull focus when least expected.

Effortless silhouettes and interesting textures give the standard ‘little black dress’ a much-needed update, while shimmering sequins and glitter accents turn cocktail hour into a night to remember.

FEMININE/RAW/SOPHISTICATED fashion.

Enjoy the season.

NEW SEASON, NEW YOU

This season, we draw inspiration for our palette from the night sky; from dark, thunderous nights lit up by lightning flashes, to the twinkle of the moon and stars above. Grounded by a sea of monochrome in all its guises (from matt black to silk creme), this season is defined by arresting splashes of gold, sand and lilac, bursting into life like shooting stars across a midnight sky.
