WORN BY TIME. DEFINED BY YOU

OUTERWEAR EDIT

From shifting seasons to deep-winter chill, our AW26 outerwear collection brings structure, softness, and statement design into one universe.

Discover wool-blend jackets with refined warmth, duvet silhouettes with sculptural volume, lightweight down styles built for movement, and faux fur layers that add tactile depth to colder days.

Explore transitional jackets crafted for in-between moments and functional styles designed to face the elements with ease.

Each piece is created to adapt — to weather, to wardrobe, to the way you move.
